Week 6

Year 4 - Week 6

This week in a nutshell:

As this is the fifth week of Fluent in Five, all days now have two questions which require a written method. However, children should still be able to answer all questions within 5 minutes.

This week:

▪ Mental addition and subtraction involve adding and subtracting two multiples of 10.

▪ Mental division focuses on dividing multiples of 10 by a single-digit number.

▪ Written addition continues to focus on the addition and subtraction of numbers with 4 digits, including where the inverse relationship needs to be recognised.

▪ Written multiplication is now extended to a three-digit number multiplied by a single-digit number.
